## New Member Service Project

San Diego State's Rotaract Club Spring Class of 2017 has been hard at work giving their entire hearts to their Class Service Project. Each

weekend several members of the class have been volunteering with The Miracle League of San Diego!

## School is Back in Session!

San Diego State has officially begun fall classes which is both exciting and stressful for our members! Amidst essays, midterms, GRE prep, and much more, SDSU Rotaract meets weekly and continues to work hard on promoting community service on and around our campus. This month's newsletter provides some images which show our members meeting Rotary members throughout San Diego, volunteering with the Miracle League of San Diego, volunteering at Rise Against Hunger and Life Rolls On, as well as our first Casual Meeting of the year!

In the coming weeks, our club looks forward to serving with Ventura Rotaract on a Corazón House Build in Tijuana, joining Club 33 for a Build a Bike for the Children of Marines event, as well as many other events!

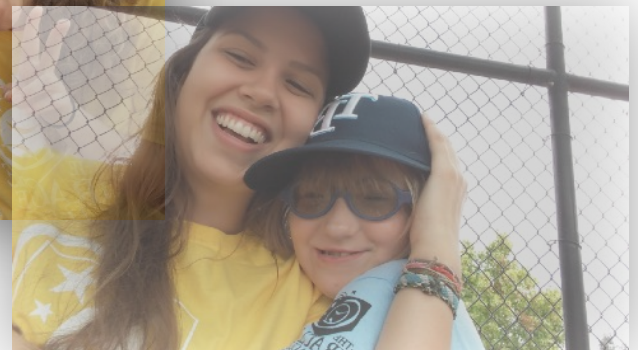

SDSU Rotaract's Executive Board and members thank you for tuning into our first monthly newsletter and hope you enjoy the photos taken of our amazing members! We hope to see you at some local events in the future!

Latrell Powell trades hats before hitting the field!

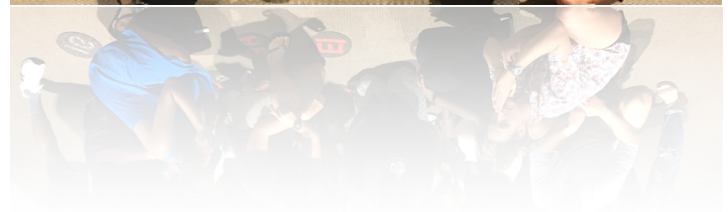

Renata Valente and Shannon Dalton enjoy an impactful Saturday with one of Miracle League's astounding athletes.

Brett Morey snaps a selfie with some SDSU Rotaract volunteers at September 23rd's Life Rolls On event. This amazing event helps those with physical disabilities experience a sport which is otherwise not available to them!

Our club also volunteered with San Diego Rotary in their second annual "Rise Against Hunger" Event. We were able to help pack 60,000 meals. Volunteers loved the ability to work with San Diego Rotarians and have such a significant impact within a short period of time -- only 2 hours!

Find out about our upcoming events and meetings below! We would love to have you join us.

**September Service Summary:**

<b>57</b> Hours Volunteering	<b>6</b> Service Events
